# TTU CONSTRUCTION GUIDELINES GENERAL DESIGN

- B. Accessibility accommodations include path of travel (starting at the parking lot or site arrival point, entering a building, and access through the building to point of renovation), restrooms, signage and telephones or other technology along the path of travel are required to be accessible.
    - 1. Directional signage may be required to direct individuals to the accessible entrance.
  - C. All programs, not necessarily all spaces must be made accessible. Renovations shall consider whether or not a program can be provided in another, already accessible or more easily converted to accessible space.
4. MASTER PLAN.
- A. The current revision of the Campus Master Plan is dated 2022 with two Amendments.
  - B. Project designers should
