

Building & Grounds Committee
3/21/23 Meeting Minutes

Members In Attendance:

Aeric Gunnels Instructor, Human Ecology

Leigh Ann Ray Director, Health Services

Sam Masters Director of Maintenance, Facilities & Business Services

- a. Winter is still digging in. This is holding Facilities back on a few projects until the weather breaks.
- b. Plants for Pennebaker Hall were purchased today however the project is still on hold due to freezing temperatures.
- c. Facilities is beginning to see how many plants did not survive the Christmas freeze.
- d. Mowing across campus has begun. The soil temperatures have warmed up and the fertilize has kicked in enough for the grass to grow.
- e. The recent wind storm did significant damage to the trees around the backside of Dixie dorms as well as a large maple at Walton House.
- f. We anticipate starting some new project this summer including the front of the RUC, replacing some trees around the Hoop
