Proposed Drug/Alcohol Policy Regarding Use of TTU Vehicles - Dr. Leo McGee

Dr. McGee said the university has a standing policy on drugs in the workplace and in recent years there has been evidence of personnel consuming alcohol while driving University vehicles. He said as a reminder to all persons who check out University vehicles from the Motor Pool, it is suggested that the following statement be added to the Automobile Order Form a person signs when checking out a vehicle:

I will not possess or consume illicit drugs or alcoholic beverages or transport or allow anyone to be transported in this vehicle who is in possession of either illicit drugs or alcoholic beverages while this vehicle is assigned to me.

Dr. Deivanayagam said the Institutional Review Committee for the Protection of Human Subjects met and recommended a change in the procedures for consideration of the Council. The change requested is in the maximum number of members stated in III-A. The maximum number of members would be eleven instead of nine. The increase was requested to assure having sufficient members to work in panels of three on applications and avoid "conflicts of interest" as much as possible. Dr. Bonner MOVED approval of the change in procedures with Mr. Sprinkle SECONDDING. The memorandum from the Committee requesting this change also named two individuals to fill those positions. Dr. Schrader pointed out that the Council was voting on changes in the procedures and not appointing individuals to serve on the committee since committee members are appointed by the President. MOTION CARRIED.

Dr. Schrader said this is a non-substantive editorial concern and can be changed as such. Dr. Brown agreed to make the editorial changes and bring them back to the next meeting as a matter of information.

Dean Adams said in some new classes set up in the College of Education a number of people have received parking tickets. She said this was a surprise because it is her understanding that
