There are several big topics to cover that will be affecting the TTU campus in the upcoming weeks and months.

The first of those is the SACSCOC 10 year reaffirmation meeting that is happening at the end of this month, March 29-31. This pinnacle on-site visit involves a team of eight reviewing Quality Enhancement Plan (QEP) 12.01.12. This visit is a significant milestone for the university and will be a great opportunity for us to showcase our progress and receive feedback from the external reviewers.
