College of Interdisciplinary Studies – School of Professional Studies

Dr. Joe Roberts

The Professional Studies Program is committed to serving and providing traditional and non-traditional students with an intellectually engaging and effective undergraduate, educational experience utilizing technology through on-ground, hybrid, and online delivery systems as they enhance their knowledge, analytical abilities, critical thinking, and communication skills for upward mobility in their professional field.

This undergraduate degree consists of 120 hours of interdisciplinary course work and is available in four concentrations:

- Health Administration prepares students interested in entering the health care field in an administrative capacity planning, coordinating, and supervising the processes of medical facilities/offices.
- Information Technology is designed to prepare managers and non-managers to use information for decision-making as well as improve proficiency in software, operating systems, and management of networking systems.
- International Organizational Leadership prepares students to lead in a global economy spanning differing management styles, business practices, and cultural awareness.
-

Faculty members complete the rubric on each student that completes the course, entering a score based on the rubric. The scores are combined to get an overall score for each semester's cohort of students.

Data from the rubric is used to assess overall pr
