

The Henry Dreyfus Teacher-Scholar Awards Program is open to academic institutions in the States, Districts, and Territories of the United States of America that grant a bachelor's or master's degree in the chemical sciences, including biochemistry, materials chemistry, and chemical engineering. Awardees are typically in departments that do not grant a doctoral degree. **A potential nominee is ineligible if there is active participation or substantial research productivity in a Ph.D. program of another department or in an interdisciplinary Ph.D. program.**

Nominees must hold a full-time tenure-track academic appointment, be after the fourth and not after the twelfth years of their independent academic careers, **and be engaged in research and teaching primarily with undergraduates.**

TTU is permitted to submit only **one (1)** nomination annually which makes necessary an internal review to select the nomination that will be submitted.

The following items must be submitted to the research@ntech.edu as a single pdf by **noon, Friday, June 19.**

a **summary description** of the nominee's research accomplishments as an independent

July 31, 2020: Receipt of all final documents for nomination package and signed Proposal Endorsement Form (PEF) in the Office of Research

August 6, 2020: Tennessee Tech will submit one nomination package as a PDF to programs@dreyfus.org.

If you have any questions, please don't hesitate to be in touch with our office at research@tntech.edu.
