

SB-F22-C001

[REDACTED]

**Whereas,** the governing documents of SGA have missing content from each other, and,

**Whereas,** to simplify for both representatives and students on campus we should merge both documents while keeping all content of substance that informs us on the SGA's operation, and,

**Whereas,** this has been done by taking any content or statements of guidance from the By-Laws and inserting them in a logical way into the Constitution, and,

**Whereas,** the Draft of this new Constitution is provided alongside this document for your evaluation and include highlights of all changes with comments on why or where in the By-Laws the content originated from, and,

**Whereas,** there is no significant difference between the amending procedures outlined
